

# BOSCH

**Building Technologies**

## ➤ Who We Are

Backed by more than a century of Bosch innovation, Bosch Building Technologies North America is driven by a simple belief: buildings should protect, inspire, and empower the people inside them. We partner with organizations to create smart, connected environments that feel safer, work smarter, and support a more sustainable future. With decades of regional experience and teams rooted in communities across North America, we bring together integrated security, fire detection, building automation, and energy solutions, all delivered by people who genuinely care. Our experts are committed to excellence, guided by digital innovation, and passionate about creating experiences that make every building feel like it's working for you.

In 2026, Robert Bosch unified its global building technology integrator operations under the name of the Bosch Building Technologies. As part of this transition, Paladin Technologies and Climatec combined their branch networks, creating a product-agnostic systems integrator focused on delivering flexible, future-ready solutions, offering customers an expanded, cross-domain service portfolio and working as one cohesive team to deliver greater value under a stronger Bosch identity.

### ➤ Our Vision

As a leading systems integrator and trusted partner for our customers, we deliver innovative solutions and services, leveraging the best vendor portfolio to solve complex challenges.

### ➤ Our Mission

We are a locally empowered team of experts, dedicated to creating exceptional customer experiences. By fostering a culture of excellence and entrepreneurship, we create a workplace where digitalization thrives, and talent grows.

# ➤ What We Are Building

We're building safer, smarter, and more sustainable infrastructure—powered by a culture rooted in responsibility, collaboration, and trust. Our people are at the heart of everything we do. Through continuous learning and a focus on innovation, we empower our teams to stay ahead of evolving buildings, emerging risks, and advancing technologies.

As your trusted partner, we deliver integrated building solutions driven by cutting-edge technology and guided by Bosch's purpose: "Invented for life." Today, as one unified team, we bring together deep expertise and expanded cross-domain capabilities to deliver more value, more insight, and more impact for our customers. While our brand has evolved, our commitment hasn't. We remain customer-first, people-first, and performance-driven. This next chapter reflects both the strength of our legacy and the momentum of what's ahead, aligning our capabilities under one powerful brand while staying true to the values that define us.

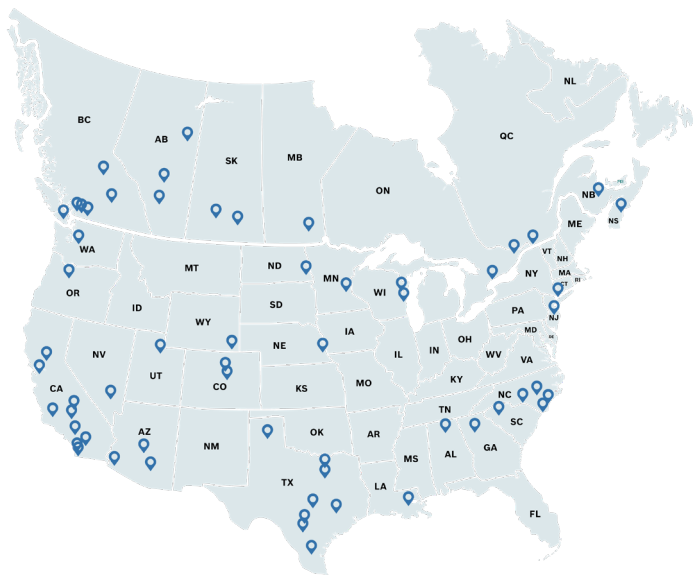

At the core of everything we do, we're building confidence that systems perform when it matters most and confidence that Bosch stands behind every solution we deliver.

# ➤ Our Reach

As a leading systems integrator and trusted partner for our customers, we deliver innovative solutions and services, leveraging the best vendor portfolio to solve complex challenges.

# ➤ Our Solutions

## 1 Energy

- Building Energy Systems
- Water & Wastewater
- Solar PV
- HVAC

## 2 Audio Visual

- AV Control Systems & Management
- Distributed AV Systems
- Meeting Rooms & Presentation Systems

## 3 Monitoring

- Emergency Alarm Response
- Environmental Solutions
- Video Monitoring

## 4 Fire Life Safety

- Sprinkler
- Special Hazards
- Mass Notifications
- Fire Alarm
- Wildfire Detection Systems

## 5 Structured Cabling

- Copper & Backbone Cabling
- Fiber Optic & OSP Cabling
- Networking & Cabling
- Underground Cabling

## 6 Networking & Wireless

- Wireless Networking
- DAS
- Switching
- Data Centers

## 7 Integrated Security

- CCTV & Video Surveillance
- Access Control
- Perimeter & Turnstiles
- Intrusion & Duress

## 8 Building Automation

- Building Management Systems
- HVAC Controls
- Valves
- Sensors

## 9 Service

- 24/7 Central Service Desk
- Troubleshooting & Repair
- On-Call Technicians
- Service Level Agreements

# ➤ What Makes Us Different

As part of Bosch, we bring more than a century of engineering excellence, disciplined innovation, and a reputation built on quality and trust. What sets us apart is our approach. We're not a manufacturer, we're a technology-agnostic systems integrator. That means we're free to select and combine the best solutions for each customer, without bias and focus solely on what works best for your environment.

From initial consulting and design through installation, service, and ongoing lifecycle optimization, our teams act as true end-to-end partners who are committed to delivering outcomes that last.
